joyce blok Radiance Treatment \$88 (45mins)

How to get smoother and brighter-looking skin!

Both AHAs and BHA have a rejuvenating effect on skin. AHAs (Alpha Hydroxy Acids) remove the upper layers of dead skin and encourages skin cell regeneration and BHA (Beta Hydroxy Acid) is able to penetrate deeper into pores for treating clogged pores and acne. AHAs and BHA are used together to great effect. Repeating the treatment 4 - 6 times at weekly intervals is recommended for getting the best results.

Receive a FREE Alpha-Beta Clear Skin Gel (worth at \$46) with an Alpha-Beta Skincare Box purchase!

Treatment feature of the month

IPL Hair removal

IPL stands for Intense Pulsed Light which is a form of light therapy. IPL is unlike laser treatment as it works like a flash-lamp with multiple wavelength of light that scatter within the skin. IPL hair removal is useful for reducing unwanted hair from the face, leg, arm, underarm, bikini line, back, and other areas. IPL hair removal will only work on hair actively growing so we recommend a course of 6-8 treatments spaced between 4-6 weeks apart, depend on hair colour and thickness. Available only during winter!
